**- Regarding "General Minor" and "Serious" Damaged Segments from Shipment 23 to 32**

Dear Mr Li

We understand from records that the Employer has issued instructions to repair segments with damages of General Minor nature upto Shipment 22 only. Since then, ten shipments (shipments from 23 to 32) have arrived at site. Excepting Shipment No. 31, there is no request from the Contractor on repair of segments, found on these shipments, having damages of general and/or serious nature.

Therefore, to expedite repair (in case of minor damages) and rejection (in case of serious damages) of segments from these ten shipments, the undersigned request you to kindly mark/segregate all the segments identified for repair/rejection for inspection of the Employer's Team.

An early action on the above will be highly appreciated, which will enable the Employer to plan a joint site inspection of these segments at the earliest.
